Confirmation of acceptance to the Baltic University Programme's Summer School "Science and Sail 2024"

To whom it might concern,

This letter confirms that *Arianna Samoylova*, student at Sumy Makarenko Pedagogical University have been accepted to participate in the Baltic University Programme's summer school "Science and Sail 2024".

The summer school will be organised as a cooperation between Uppsala University and Klaipeda University, as part of the Baltic University Programme. The event will take place in Klaipeda, Lithuania between 4th and 11th of August 2024. All program activities, food and accommodation costs for the duration of the summer school will be covered by the Baltic University Programme. Students are expected to finance their own travels to and from Klaipeda. We encourage universities and other funders to support the participation of the students by granting them a travel grant or similar.

If you are having any questions regarding the summer school or Arianna's participation, you are most welcome to contact me.

With best regards,

Pontus Ambros
